December 2015

Please read through the notes first so that you can get an overview of how the page was put together 😊

In your Kit:

5 x Patterned Papers
1 x Cardstock
Stencil
Glitter
Title
Flower Pack
Clocks
White and Maroon Paper

Photos and tools/products required:

1 x 13cm x 18cm Landscape (cropped slightly)
2 x 15cm x 10cm Landscape
Blending tool and brown distress/dye ink
Anita's 3D Gloss/Glossy Accents
Craft Sheet
Foam to raise items with
Basic Tools
Red and Gold Dye Inkpads/Liquid Ink

Step by Step Instructions: (All edges were inked with a dark brown ink)

1. Use the two Celebr8 Love papers as your background.
2. On your craftsheets, squeeze some Anita's 3D Gloss or Glossy Accents and add some glitter. Use the stencil from your kit and your finger as a tool (best tool you own!) and spread the glitter mixture on the left and right side of the two background papers (use the photo of the layout as a guide for placement). Set this aside to dry – it takes about 30 minutes – depending on how thick you made the mixture. Clean your craft sheet immediately.
3. From the Graphic 45 paper, cut two pieces of 8cm x 30cm (side with numbers) and two pieces of 5cm x 30cm (red striped side) (3" x 12" and 2" x 12").
4. On your craft sheet, take your red and gold inks and add some to the sheet. Mist with water and dip one of your sheets of white paper into the ink mixture. Set this aside to dry. Repeat the step with the 2 embossed clockfaces.
5. When dry, cut the paper strips in 2 pieces of 3cm x 30cm (1.5" x 12") and swipe your brown inkpad over the coloured clock face to highlight the embossed areas.
6. Sand and matt your two small photos.
7. Cut a frame from the maroon gold embossed piece of paper for your main photo. Mine is about 22cm x 15cm and 2cm wide. I cut a smaller frame from the inside that was cut out to place over the two photos on the left page and I raised both the frames with fun foam/foam tape (refer to layout)
8. Ink your chipboard "L" and "M" and when dry, add to title strip.
9. Glue all your pieces of paper to the background.
10. Use your blending tool and brown ink to blend the edges of the background papers you did the glitter technique on. Please remember that the glitter mixture must first be completely dry before you do this. The glitter will resist the ink and reveal gorgeous glittered circles! LOVE IT!
11. Position and place your clocks, flowers and other elements.
12. I cut a quote from the other Celebr8 paper and matted it on a piece of the other white cardstock in the kit that I inked. I also added faux stitching with a black pen as an accent and matted it with left over paper.
