

MEMORIES

EXCLUSIVE DESIGN BY ELIZNA PARSONS for SCRAPBOOK STUDIO

A beautiful layered single page layout with the lovely Couture Creations, Vintage Rose Garden Collection

BUILDING THE BACKGROUND:

1. Dark brown cardstock will form the background to this layout.
2. Cut PLAID AND MUSIC (CO723993) to measure: 28.5cm x 28.5cm square.
 - Chalk and distress the edges.
 - Use a pinwheel to add fake-stitching to the inside edges of this paper. Run the pinwheel along the edges of the paper to mark out rows of small holes. Use a brown fineliner to draw the "stitchlines". Adhere the paper on the dark brown cardstock.
3. From VINTAGE BLOOMS (CO723981) cut a paper strip: 8cm x 30.5cm. Keep aside to use as the large banner.

FOLDING TECHNIQUE:

1. From left-over papers cut 9 blocks: 5cm x 5cm.
 - Fold the blocks as shown in the picture.
 - Chalk the edges.
 - Stick down the folded edges.
2. Position 6 of the folded squares on the layout - see picture of layout for placement (top left).
3. Add horizontal fake-stitching lines through these blocks.

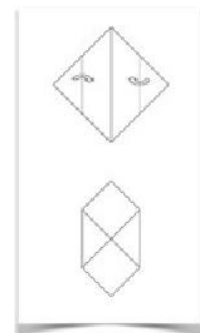

PHOTO MATTINGS, LAYERS AND LARGE BANNER:

1. From caramel coloured cardstock cut a matting: 16cm x 19cm. Chalk & distress the edges.
2. From green cardstock cut a block: 16.5cm x 17cm. Chalk and

distress the edges. Add a fake-stitching line around the edges of the green photo matting.

3. From brown cardstock cut a matting: 10cm x 15cm.

4. Now prepare the large **banner**:

- Cut a V to make the banner shape.
- Chalk and distress the edges.
- Add a fake-stitching line around the edges of the banner.

5. From a piece of left-over green printed paper cut a small **tag**: 5cm x 8.5cm.

- Cut this tag with a pointy end.
- Chalk and distress the edges and add a fake-stitching line around the edges.
- Adhere the small tag onto the large banner.

6. **Position** the mattings and the large banner on the background paper - see picture of layout for placement.

7. Raise the green and brown photo matting and the large banner on thin double-sided foam tape.

- When you position the double-sided foam tape, keep it away from the edges as we will tuck flowers and die-cuts under the mattings and banners.

8. **Adhere** mattings and banner.

FINISHING TOUCHES - see picture of layout for placement:

1. From TIME (CO723998) cut out the small flower cluster with the small clock. Chalk the edges. Tuck this under the green photo matting and the banner (below the photo mattings). Adhere.

2. Cut out half of the other smaller clock. Position and adhere.

3. Fussy cut a few more smaller flower clusters to use on the layout.

4. Position 2 folded squares on the green matting. The last folded square is tucked under the green matting. Add fake-stitching lines through these blocks, too.

5. Make 3 clusters with the die-cuts and flowers. Raise all the flowers on double-sided foam tape. **Adhere** the clusters.

6. Add a sprinkling of sequins to some of the clusters. Add a few small brads as tiny accents with the sequins.

7. Adhere the title.

8. Add journaling to finish your layout off nicely.
